## MEMORANDUM FOR THE RECORD

SUBJECT: Arms Control Briefing for Senator Carl Levin (D-MI) SROB 459

Senator Levin's legislative assistant Peter Lennon (224-9104) called to request a briefing on alleged Soviet violations of arms control treaties. Senator Levin serves on the Armed Services Committee; Lennon used that position as the basis for the request.

It is worth noting that Lennon opened the telecon with the statement that the Senator wanted "a CIA briefing on the Intelligence Community's input to the forthcoming Arms Control Treaty Compliance Report by the administration." In attempting to refine the request, Lennon said the Senator wants "a basic dump regarding alleged Soviet violations, with a focus on strategic weapons -- although he would appreciate touching on CBW and TTBT also."

Lennon apologized for the short notice saying the Senator would be in town only briefly before returning to Michigan. He requested the briefing be conducted in the Senator's office (SROB 459) at 9-10 Wednesday, 11 January, or 10:30-11:30, same day. -He was quite definite in stating that the Senator would understand if his interest could not be accommodated at this time and would renew the request on return to Washington, if necessary.

I informed Lennon that while it was our wish to be as accommodating as possible, the short notice might preclude a briefing due to prior commitments. I told him he would hear further on the matter from either [redacted] STAT
